Important Notice About Over-the-Counter (OTC) Medications

OTC medications require a doctor's prescription to be eligible for FSA/HSA reimbursement. For that reason, OTC medications cannot be purchased using your benefits debit card unless dispensed by a pharmacy the same as a standard prescription (with an Rx number). If a manual claim is submitted for purchase of an OTC medication, both a copy of the prescription and the purchase receipt must be included to receive reimbursement.

Non-medicated OTC products (diabetes test strips, saline solution, bandaids, etc.) do not require a prescription. You can use either your debit card to purchase these items or submit the purchase receipt for reimbursement.

FSA/HSA Eligible OTC Medications and Products

COPY OF PRESCRIPTION AS WELL AS DETAILED RECEIPT REQUIRED FOR REIMBURSEMENT:
