Q: Can anyone open an HSA?

A: No. You must be enrolled in a High-Deductible Health Plan (HDHP) to open an HSA or contribute to an existing HSA. See above for the minimum deductible amount that currently qualifies as an HDHP.

Q: How much can I contribute each year to an HSA?

A: The IRS issues annual contribution limits each year, which differ depending on whether you have Employee Only or Family health insurance coverage. See the top of page 2 for the current annual limits. HSA account owners aged 55 or older can make a “catch up” contribution of up to \$1,000 each year above the current annual limit.

Q: How do I make contributions to an HSA?

A: You can make pre-tax contributions, post-tax contributions, or a combination of the two as long as the combined total does not exceed the IRS annual limit. Pre-tax contributions are made through payroll deduction. Post-tax contributions are made by depositing directly into the HSA account. Post-tax contributions for a given year can be made up until the due date for your income tax return for that year; for most people, this is April 15 of the following calendar year.

Q: How much of my HSA can I spend each year?

A: The only spending limit is your account balance. You can only spend or withdraw up to the actual amount sitting in your account at that time. You do not lose any money that is not spent by the end of the year, however. Since all unused funds in an HSA automatically roll over from year to year, you can build up your available balance over time.

Q: What can I spend HSA funds for?

A: HSAs can be used to pay for any qualified healthcare expense as defined by the IRS. This includes doctor and nurse visits, prescriptions, lab tests, hospitalization, physical therapy, mental health care, eyeglasses and contacts, dental care, and much more; see the listing of common eligible and ineligible expenses on page 4. To be eligible for payment from an HSA, the expense must be incurred on or after the date the HSA account was opened. HSA funds can also be used for certain health insurance premiums, such as COBRA and TEFRA.

Q: Can I spend HSA funds on family members not covered by my health insurance plan?

A: As long as a person is listed on your Federal income tax return as a joint filer or dependent, your HSA can be used to pay for their qualified expenses. This applies even if they are covered by a separate insurance plan that is not an HDHP or not covered by any health insurance plan at all.

Q: How do I access my HSA funds?

A: You will receive an HSA debit card that is linked to your account. This is a limited-purpose Mastercard® that is coded for medical providers only. Having the HSA debit card lets you cover qualified expenses without first having to pay out-of-pocket and then wait for reimbursement. Although you have the option of setting a PIN for your card, a PIN is not necessary; to pay an expense, just swipe your debit card as you would a regular credit card. If your medical provider does not accept cards, or for any reason you did not use your card to pay an eligible expense, you can submit a claim for reimbursement (also known as a “request for distribution”).

HSA

Frequently Asked Questions

Q: What exactly happens in my HSA account when I swipe my debit card?

A: As soon as the card transaction is authorized through the Mastercard® network, your account's "purse value" (the amount of money available to spend) is reduced by the transaction amount. If signed up for mobile alerts, you will receive one within moments through the mobile app that confirms the transaction and shows your reduced available balance. You will also be able to see the pending card transaction and balance reduction in your account (online or mobile app).

Q: What if there is not enough money in my HSA when I swipe the card to pay an expense?

A: If the transaction exceeds your available balance (purse value), usually it will be declined. Some merchants can accept "split tender," which means their system is able to charge your card only for the portion of the total due that equals your available balance and then ask for a different form of payment to cover the remainder.

Q: Are there any transaction limits on my debit card?

A: Both the per-transaction limit and the maximum combined daily transaction limit for your debit card is \$5,000, even if you have more available in your HSA account.

Q: Do I have to keep up with receipts?

A: Although the IRS does not require HSA account holders to submit receipts to use their debit card or to get reimbursed for an out-of-pocket expense, it is a good

idea to keep receipts in case of future need. As an HSA account owner, you have access to the ClaimsVault®, a patented "electronic shoebox" that lets you store electronic copies of receipts in your account. In addition to receipts for expenses you have paid, you can also store receipts for expenses that you haven't claimed yet but may want to claim once your account balance grows larger.

Q: I'm going to be eligible for Medicare later this year. Can I still have my HSA account?

A: If any part of Medicare is elected, you cannot open a new HSA account or contribute any more money to an existing HSA account after your Medicare effective date. You can however continue to use any funds remaining in an existing HSA account.

Q: How can I check my account balance, card transactions, status of reimbursement claims, and so on?

A: You have account access 24 hours a day through your online employee portal and through the mobile app. To register and log in for the first time, refer to the welcome email that your benefits administrator will send after enrollment.

Q: What if I still need help after looking at my account?

A: Contact your benefits administrator, whose information can be found on the back cover of this enrollment booklet.
